BODDIE STILL SILENT.

Nearly two weeks have passed since certain grave charges were made in the leading papers of the country against the Hon. James Doolittle, one of Mr. Greeley's eminent and distinguished reformers, and late president of the Baltimore convention.

The opportunity was offered Mr. Doolittle to reply to the indictment presented against him; he was offered the amplest space that he required to file his answer, but to this hour he has maintained an unbroken silence.

The charges made against Mr. Doolittle, as our readers will recollect, were that in 1862, by virtue of his influence as a prominent Senator, he procured a certain friend for one T. J. Connelly, a late member of the Treasury Department, and forced this said Connelly into a contract by which he (Doolittle) was to receive a share of the large profits that it was expected would accrue from the speculation. Mr. Doolittle's own letters confirm, and the offer has been made by the New York Times to submit the letters to any person whom Mr. Doolittle may name, and let them pass upon their genuineness.

But Mr. Doolittle is silent; his friends are silent, and the Greeley organ, so ready to prefer charges against their enemies, or to refute those against their friends, have not a single word to say. The country can draw only one conclusion from this ominous silence—that James Doolittle is guilty of one of the most scoundrelous transactions that have yet come to light. Doolittle, by his silence, conveys judgment.

A SIGNIFICANT FACT.

Gen. Ulysses S. Grant has now been in the field for several weeks as the Republican candidate for Delegate to Congress, but thus far the Democrats have been unable to find a man strong enough to run against him with the slightest prospect of success.

This is the best answer that could possibly be given to the slanders which the Democratic organ daily prints upon the local administration. Morning after morning it sends out to the country the false intelligence that the city is in open revolt, that things stand as they did in '61, &c., &c. The fact is that the city was never more heavily governed than it is at present, and has been so much real solid improvement and advancement. Tax rates except where special improvements are being made, are lower than in any of the large cities of the Union—only 1% and real estate has advanced nearly 25 per cent. during the last eighteen months. Hundreds of Democrats announced that they will vote for Gen. Chipman against any candidate whom the Democrats may put in the field. This is the actual situation of affairs, and we hope that the country will not be deceived by the false statements that are daily made, the only effect of which is to drive capital away from us, injure the city, and hinder its material advancement.

THE CHICAGO TRIBUNE tries to defend Senator Trumbull against the charge of having taken ten thousand dollars as a fee from the United States, which he had no business as a Senator to take. The defense is very lame.

The Tribune fails to say that Senator Edmunds was applied to before Mr. Trumbull, and that he declined because he could not, as a Senator, take the case. And it also fails to state another point, that the case was conducted almost entirely by the Hon. Matt Carpenter, who had not at that time been elected to the Senate. Mr. Trumbull's services were comparatively trifling, and one fourth of ten thousand dollars would have been an ample compensation for him.

JUDGES WILSON AND GOODRICH, competing candidates for Congress, the Fourth Indiana district, have joined forces to combat the Conservative, in that state, last week. Both parties were out in strong force, particularly the Democratic, who expected that their favorite would win an easy victory over Mr. Wilson. In this, however, they were disappointed. Wilson secured more unanimous and carried off all the honors. Mr. Wilson is one of the best workers in Congress, a man of high character and unquestioned ability, and his constituents will make a great blunder if they fail to give him a handsome majority.

HITHERTO THE custom has been for statesmen, politicians and all who had cause to ask or to expect, to dine the day before the New York Herald has just joined the rule and enlisted the aid of arbitrators, counsellors and attaches, at a magnificient banquet in Geneva. This is out of the many new departures which the Herald is taking under the wise management of its gallant and accomplished editor, Mr. Bennett. His family probably will receive his appreciation of his splendid inheritance.

THE SUZ CANAL and the Iman Pacific railway have become the two great highways from Asia to Europe. In July, 1870, the number of pounds of tea that passed through the canal on its way to England was only 711,000 pounds. The corresponding month this year the number of pounds was 22,912,000. The tea traffic over the Iman Pacific has increased from the beginning, and is to-day larger than ever.

OUR FRIENDS in another world will be seen that Bishop Bayler, of Newark, N. J., has made Archdeacon of Baltimore, having on Monday last received the bull announcing his appointment from Pope. Washington being ecclesiastically in the jurisdiction of the See of Baltimore, this announcement will of course be interesting to a large portion of our readers.

THE SPIRIT OF THE CAMPAIGN.

The Political Situation.

In the spirit of the campaign is extraordinary. The Republians, reuniting in its principles, have joined and provided that the black man shall have some rights among others the right to get drunk—that white men were bound to respect, our metropolitan city has been in a high state of excitement. On the one hand we have had our white restaurant-keepers bound, together, and the colored platen, fully determined that the colored man should be removed from the temptation of putting that into his mouth; while the black men are equally determined and resolved that they shall have the largest liberty and the rights to make fools of themselves, if they feel so inclined.

Never was there such a sublime and truly philanthropic feeling manifested on the part of the colored men than the one displayed by the colored men in this country. The colored men, fully determined that the colored man should be removed from the temptation of putting that into his mouth; while the black men are equally determined and resolved that they shall have the largest liberty and the rights to make fools of themselves, if they feel so inclined.
